

BRIDGEWATER HAZARD MITIGATION
DEVELOPMENT OF HAZARD MITIGATION STRATEGIES
JANUARY 29, 2015

Meeting opened at 6:00 pm

Present: Mary Oldenburg, Nope Martin, Ed Earle, Josh Maxham, Randy Kennedy and Nancy Robinson. Missing-John Timken

Samantha Holcomb – TRORC

Sam presented a draft chart of hazards that were identified at the first meeting as being appropriate for the Town of Bridgewater which includes Structure Fire, Hazardous Material Spills, Wildfire/Brushfire and flooding. Each of these hazards will address an action plan, responsible organization to handle hazard, priority, resources and time frame. Committee reviewed each hazard category and completed chart.

Once these identified hazards are incorporated into the revised mitigation plan and final draft reviewed by committee, copies will be sent to surrounding communities and Stakeholders. Finalized plan will then be submitted to FEMA for approval (this could take several months). Selectboard will adopt after FEMA approval.

Meeting adjourned at 7:45 pm.

Respectfully submitted,

Nancy Robinson
